American Bank Center welcomes new ag banking officer in McClusky location

McClusky, N.D. – American Bank Center is proud to have Ag Business Banker Don Weidner, serving our McClusky community. Weidner grew up on a family farm and after years of experience he became a farmer and rancher himself. He graduated from Dickinson State University with a bachelor’s degree in Business Administration and a concentration in Agriculture.

“I am looking forward to meeting existing and new customers to learn more about their operations and financing needs” says Weidner.

Weidner understands that farming and ranching is not just a business, it’s a way of life. With his experience he can discuss financing for farm and ranch operations.
